***Don't Be Fooled by the "Right to Work" Scam!***

***WHEREAS, Michigan has become the 24th state to have "right to work" laws that prohibit workers and employers from negotiating union security clauses that ensure that all workers who receive economic benefits from union representation share the costs of such representation; and***

***WHEREAS, right to work laws do not guarantee employment to workers; and***

***WHEREAS, right to work laws weaken the ability of all workers to participate in the collective bargaining process; and***

***WHEREAS, right to work laws harm all workers alike by depressing union membership and limiting the effectiveness of collective bargaining; and***

***WHEREAS, according to the U.S. Census Bureau the median household income in 2010 in right to work states was \$6,437 less than in free-bargaining states; and***

***WHEREAS, according to the Kaiser Family Foundation, in 2011 the percentage of the population without health insurance was approximately 28 % higher in right to work states;***

***WHEREAS, the current so-called "right to work" law weakens working families, worsens our schools and governmental services and has a devastating effect on our community;***

***Therefore, I hereby pledge to support any effort to repeal Right-To-Work legislation in Michigan.***
